SEO Growth Report

qualifiedleadsx.com · Tuesday, 10 November 2026 · branch claude/qualified-leadx-seo-15g7kc

1. Summary

91/112	23	281	76 vs 57
sitemap URLs indexed (was 69/115 on 7 Nov)	pages newly indexed since 7 Nov	impressions, last 30 days (5 clicks, 46 pages)	impressions, last 7 days vs previous 7

- Fixed a structured-data error Google reported on 8 indexed pages (empty BreadcrumbList) and a video date warning on all VideoObjects; the local validator now checks both.
- Published 6 new pages where there is real demand and real data: a free Meta ads budget calculator, 2 guides and 3 case studies. No location or pricing pages were created, because they would need business facts that haven't been supplied yet.
- Expanded 3 thin core service pages that already show in search (positions 55–91), including the main “high ticket lead generation” page.
- Every indexable page: title ≤ 60, description ≤ 155, one H1, ≥ 5 internal links in, 0 broken links, 0 schema errors. All new pages pass mobile checks with LCP ≈ 1 s and CLS 0.

2. Analysis

Search Console: top non-brand queries (10 Oct – 9 Nov)

Query	Page	Impr.	Position
high ticket lead generation	`/blog`	9	75.4
benchmark cac b2b	`/blog/b2b-client-acquisition-cost-cac-benchmarks-2026`	9	74.2

Query	Page	Impr.	Position
facebook ads agency vs hiring an in-house media buyer	/blog/facebook-ads-agency-vs-in-house-media-buyer	8	4.4
customer acquisition agency	/for/agencies	7	85.4
the closer matrix reviews	/blog/high-ticket-sales-training-framework	6	8.2
facebook ads targeting for high ticket products	/blog/meta-ads-for-high-ticket-b2b-broad-targeting	4	18.5
b2b roas	/blog/b2b-roas-benchmarks-qualified-appointment-generation	3	14.3
x b2b targeted ads	/blog/meta-ads-for-high-ticket-b2b-broad-targeting	3	31.7
customer acquisition agencies	/for/agencies	3	89.3
cac rising after series b	/blog/b2b-client-acquisition-cost-cac-benchmarks-2026	2	62
roas cac	/blog/category/scaling-economics	2	80
quick lead acquisition	/blog/speed-to-lead	2	59
buy coaching leads	/for/coaches	2	81
investor lead broker	/for/real-estate-investors	2	67
speed to lead	/speed-to-lead	2	87
quickerleads ad platforms	/blog	1	78

Findings

- **Cannibalisation on the head term:** “high ticket lead generation” shows three URLs (/high-ticket-lead-generation at 55, /blog at 75, a strategies post at 93). The service page was the thinnest of the three relative to intent; it is now the most complete answer.
- **Thin core pages:** /speed-to-lead and /lead-generation-agency get impressions at positions 87–91 with under 550 unique words, much of it the same 8-step block shared across service pages.
- **Proof gap on industry pages:** law firms, home improvement and med spas had no matching case study although real results existed in the data as noindexed caption pages.

- **Competitor SERPs:** “high ticket lead generation agency” is led by directories (Clutch, DesignRush, SyncGTM, Salesforge) and outbound agencies; “facebook ads budget calculator” is led by tool pages (Elementor, MeasureU, AdManage). Tools rank for tool queries, which is why the calculator was built rather than another article.

Keyword targets

Keyword	Page	Current position	Action
high ticket lead generation	`/high-ticket-lead-generation`	55 (also /blog at 75 and a strategies post at 93)	Service page expanded 541→993 unique words with comparison and cost tables; the blog and strategies post keep linking to it as the primary page
lead generation agency / done-for-you lead generation agency	`/lead-generation-agency`	91	H1 aligned with title; buyer's checklist; 545→867 words
speed to lead / what is a good speed to lead time	`/speed-to-lead`	87	Measurement method, benchmark table, channel guidance, 2 FAQs; 479→859 words
meta ads budget calculator / facebook ads budget calculator	`/tools/meta-ads-budget-calculator (new)`	not ranking	New free tool; SERP is all calculators, none built around booked calls and close rate
facebook ads for hvac / hvac facebook ads	`/blog/facebook-ads-for-hvac-companies (new)`	not ranking	Guide built on 5 real HVAC campaigns; supports /for/home-improvement
how to hire an appointment setter	`/blog/how-to-hire-an-appointment-setter (new)`	not ranking	Supports /appointment-setting (position 38)
med spa case study / mva leads / hvac case study	`3 new case studies`	not ranking	Proof pages for med spa, law firm and home-improvement industry pages
meta ads pricing / how much do meta ads cost	`/blog/how-much-does-meta-ads-cost`	26	Section linking to the new calculator

3. Pages published and updated

New pages

URL	Type	Title (chars)	Meta description (chars)	H1	Unique words	Links in
/tools/meta-ads-budget-calculator	New free tool	Meta Ads Budget Calculator (Free) | QualifiedLeadsX™ (52)	Work out the monthly Facebook and Instagram ad budget you need from your target clients, close rate, show rate and cost per booked call. Free, no sign-up. (154)	Free Meta Ads Budget Calculator	new → 727	151
/blog/facebook-ads-for-hvac-companies	New blog post	Facebook Ads for HVAC Companies: Real Numbers (45)	Facebook ads for HVAC companies, with real campaign data: cost per lead, booked appointments, show rate, cost per installation, ROAS and the full funnel. (153)	Facebook Ads for HVAC Companies: Real Campaign Numbers and the Funnel Behind Them	new → 958	10
/blog/how-to-hire-an-appointment-setter	New blog post	How to Hire an Appointment Setter (2026 Guide) (46)	How to hire an appointment setter for a high-ticket business: the scorecard, job description, role-play interview, pay plan and two-week ramp-up. (145)	How to Hire an Appointment Setter: Scorecard, Interview, Pay and Ramp-Up	new → 902	13
/case-studies/nyc-med-spa-rf-microneedling-74k	New case study	Med Spa Case Study: $74,100 From $10K Ads (41)	A 3-clinic New York med spa booked 453 RF microneedling appointments at $22.93 each and closed 247 clients for $74,100 from $10,387 in ad spend. (144)	Multi-Location Med Spa Case Study: $74,100 From $10,387 in Meta Ads	new → 506	7
/case-studies/florida-hvac-65k-cash-collected	New case study	HVAC Case Study: $65,872 Net Cash, 12.7 ROAS (44)	$5,628 in Meta ads booked 125 HVAC appointments and 13 new installations worth $71,500, for $65,872 net cash collected and a 12.70 ROAS. (136)	Florida HVAC Case Study: $65,872 Net Cash Collected at 12.70 ROAS	new → 550	7
/case-studies/mva-personal-injury-leads-8810	New case study	MVA Leads Case Study: 8,810 Leads at $7.61 (42)	A motor vehicle accident (MVA) lead campaign for a pay-per-lead agency produced 8,810 leads at $7.61 each from $67,013 in Meta ads in under 3 months. (149)	Personal Injury (MVA) Case Study: 8,810 Leads at $7.61 Each	new → 393	7

Case studies use only the numbers in each client's own published post. The pricing post planned earlier was dropped because it would overlap the existing “lead generation agency cost” post, and third-party price sources could not be verified from this session.

Updated pages

URL	Change	Title (chars)	Meta description (chars)	H1	Unique words	Links in
/high-ticket-lead-generation	Content expansion	High Ticket Lead Generation for $3K–$25K Offers (47)	Done-for-you high ticket lead generation for consultants, coaches, and agencies. Apply now. (152)	AI Client Acquisition Mastermind: Build a Predictable Client Acquisition System.	597 → 1438	151

Internal linking

- Industry pages list case studies from their own industry (“Results in this industry”).
- /appointment-setting links the new hiring guide; /for/home-improvement and /for/solar-companies link the HVAC guide.
- The calculator is linked from the tools hub, footer, related-links blocks, /meta-ads-agency and the Meta ads cost post.
- Each new case study links to its industry and service pages.

4. Technical SEO and indexing

Fixed

- **Breadcrumb error (Search Console, 8 pages):** WebPage referenced `…#breadcrumb` but the breadcrumb block had no matching @id, so Google saw an empty second BreadcrumbList. All breadcrumbs now carry the matching @id.
- **VideoObject uploadDate:** now a full datetime with timezone on every video.
- **Validator:** `npm run seo:validate` now fails on both problems.
- **Images:** three case-study images recompressed (731/323/292 KB → 191/124/123 KB).
- **Sitemap:** new pages are in sitemap-core and sitemap-content with real lastmod; noindexed ID duplicates of the 3 new case studies now canonicalise to the named URLs.

Core Web Vitals (mobile, 4× CPU throttle, slow network)

Page	LCP	TBT	CLS	Note
/	1,340 ms	2,932 ms	0	Known: 3D hero (three.js) on the main thread
/mastermind/hidden-facebook-interest	1,052 ms	184 ms	0	OK
/tools/meta-ads-budget-calculator	1,020 ms	201 ms	0	OK
/case-studies/nyc-med-spa-rf-microneedling-74k	988 ms	178 ms	0	OK (hero image 731 KB → 191 KB)
/blog/facebook-ads-for-hvac-companies	888 ms	189 ms	0	OK
/high-ticket-lead-generation	1,060 ms	256 ms	0	OK

Index status (URL Inspection, all 112 sitemap URLs, 10 Nov)

91 indexed, **21** not yet. Newly indexed since 7 Nov: `/services`, `/vsl-funnels`, `/whatsapp-lead-nurture`, `/compare/qualifiedleadsx-alternatives`, `/case-studies/agency-backend-continuity-86k`, `/for`, `/for/business-coaches`, `/for/executive-coaches`, `/for/fitness-coaches`, `/for/course-creators`, `/for/solar-companies`, `/for/online-education`, `/meta-ads-for-financial-advisors`, `/meta-ads-for-saas`, `/appointment-setting-for-agencies`, `/appointment-setting-for-consultants`, `/tools`, `/benchmarks/show-rate`, `/glossary`, `/blog/category/lead-qualification`, `/blog/speed-to-lead-statistics-response-time`, `/blog/speed-to-lead`, `/blog/meta-advantage-plus-for-b2b`.

/blog/scaling-from-100k-to-500k-coaching	URL is unknown to Google

Submission: all 21 were sent to the Indexing API and rejected with HTTP 429 (daily quota of 200 already used by the shared Google Cloud project). Resubmit tomorrow. No canonical conflicts were found: Google's chosen canonical matches ours on every indexed URL.

5. Backlink and authority opportunities

Backlink data could not be pulled (OpenSEO has no credits). These are opportunities, not completed work.

Type	Where	How
Agency directories	Clutch, DesignRush, GoodFirms, Sortlist, plus the SyncGTM and Salesforge agency directories that rank for “high ticket lead generation agency”	Create complete profiles with the case studies as proof; ask 3–5 clients for verified reviews
Linkable assets	/tools/meta-ads-budget-calculator, the 5 benchmark pages, the glossary	Pitch the calculator and benchmarks to marketing newsletters, agency communities and “best free marketing calculators” roundups
Original data	Benchmarks + case-study data (cost per booked call, show rate, close rate)	Publish a yearly “cost per booked call” report and pitch it to journalists (Qwoted, Featured, Help a B2B Writer)
Podcasts and guest posts	Coaching, agency-owner and home-service marketing podcasts	Founder interviews on client acquisition; each gives a profile link
Partners and tools	CRM/automation tools used in delivery (e.g. GoHighLevel ecosystem), Skool communities	Partner or expert-directory listings and integration case studies
Client links	Clients from the published case studies	Ask for a “marketing by QualifiedLeadsX” credit or a testimonial page link

6. Remaining opportunities and next steps

1. **Publish today's work:** it is on the branch `claude/qualified-leadx-seo-15g7kc` (head 39b2052), not on `main`. Merge or ask me to push it to `main`.
2. **Indexing API quota:** the 21 not-indexed URLs (section 4) were rejected because the shared 200/day quota was already used. Resubmit tomorrow, then submit the 6 new URLs once live. Also run `npm run index:now` after deploy.
3. **Sitemap:** Search Console still shows the old flat sitemap (last read 9 Nov, 115 URLs). Resubmit `/sitemap.xml` so Google picks up the sitemap index; add it in Bing Webmaster Tools too.

4. **Rich results:** after deploy, use URL Inspection → Test live URL on /blog and /for/coaches to confirm the breadcrumb error is gone, then click “Validate fix” in the Search Console Breadcrumbs report.
5. **Homepage TBT 2.9 s** on throttled mobile from the 3D hero. Options: static poster on mobile, or load the scene only after interaction.
6. **Number consistency:** /blog/how-much-does-meta-ads-cost quotes $140–$280 per booked call; the benchmark pages say $90–$180. Pick one source of truth and align the post.
7. **Thin pages:** 49 indexable pages are still under 300 unique words (mostly service-for-industry pages and the 10 original case studies). Continue the industry-page upgrades from the playbook plan, a batch of 5–10 a week.
8. **Facts needed for /pricing and location pages:** price ranges, guarantee terms, client countries (see docs/growth-playbook/07-fill-in-facts.md).
9. **Keyword data:** OpenSEO had no credits and this session cannot reach third-party sites, so volumes and difficulty were not pulled. Topic choices were based on Search Console queries, live SERP checks and the site's own data.
