SEO work: Monday 9 November 2026

qualifiedleadsx.com · branch claude/qualified-leadx-seo-15g7kc (commit 5807f7b)

What was done

- Pulled fresh Search Console data (10 Oct to 8 Nov): 36 pages with impressions, 251 impressions, 5 clicks.
- Picked the indexed pages that Google is already testing (impressions on pages 2 to 6) and rewrote or expanded their content, because these are the pages most likely to move up after a content improvement.
- 10 pages changed: 4 industry and service pages, 5 blog posts expanded, 1 blog title tuned for click-through.
- Each change targets queries the page already appears for, as new H2 sections and FAQ questions (playbook STEP 7: queries in positions 8 to 20 become H2s or FAQs).
- All numbers come from the site's own benchmark pages and named case studies. Nothing was invented. The closer training section is a neutral checklist and makes no claims about any third-party program.
- Checks: build passes; 0 broken links, 0 orphan pages, 0 schema errors; every title ≤ 60 and description ≤ 155 characters; no horizontal scroll on mobile.

Pages changed

Page	Search Console (30 days)	Queries targeted (position)	Unique words	What changed
/for/agencies	20 impr, pos 34.5	customer acquisition agency (84), customer acquisition agencies (89)	426 → 1,411	H1 with keyword; why referrals stall; 6-step system; offers to test; 3 agency case studies; 5 mistakes; 3 new FAQs incl. "What is a customer acquisition agency?"
/appointment-setting	20 impr, pos 38.6	appointment setting (head term)	892 → 1,416	H1 "Appointment Setting Agency"; what's included; how pricing works; benchmark table; countries served; 3 new FAQs
/for/coaches	9 impr, pos 15.9	buy coaching leads (78)	509 → 1,172	H1 with keyword; why DMs and bought leads fail; angles; cost table from benchmarks; mistakes; FAQ "Where can I buy

Page	Search Console (30 days)	Queries targeted (position)	Unique words	What changed
				coaching leads?"
/for/consultants	5 impr, pos 7.2	consulting client acquisition	447 → 1,081	H1 with keyword; why pipelines run dry; 5-step system; opportunities; mistakes; 2 new FAQs
/blog/b2b-client-acquisition-cost-cac-benchmarks-2026	14 impr, pos 60.9	benchmark cac b2b (74), cac rising after series b (62)	652 → 1,280	CAC by offer size table; why CAC rises after Series B; formula with worked example; 2 FAQs
/blog/meta-ads-for-high-ticket-b2b-broad-targeting	14 impr, pos 25.2	facebook ads targeting for high ticket products (18.5), x b2b targeted ads (31.7)	926 → 1,425	Targeting settings for high-ticket products; Meta vs X vs LinkedIn for B2B; 2 FAQs
/blog/high-ticket-sales-training-framework	11 impr, pos 15.4	the closer matrix reviews (8.2)	1,066 → 1,335	Neutral 7-point checklist for evaluating closer training programs; 1 FAQ
/blog/b2b-roas-benchmarks-qualified-appointment-generation	4 impr, pos 13.2	b2b roas (14.3), roas cac	1,170 → 1,523	Short answer first ("What is a good B2B ROAS?"); ROAS vs CAC; 2 FAQs
/blog/the-2026-vsl-funnel-blueprint-high-ticket-client-acquisition	9 impr, pos 11.2	vsl funnel	948 → 1,246	Page-by-page VSL funnel example with the metric for each page; 2 FAQs

Next steps

1. **Merge the branch into main** so Hostinger deploys it. Until then none of this is live.
2. After deploy, request indexing for the 10 URLs above (URL Inspection in Search Console, or `npm run index:google -- <urls>`) and run `npm run index:now`.
3. Resubmit `/sitemap.xml` (now a sitemap index) in Search Console and Bing Webmaster Tools.

4. Re-check positions in 7 to 14 days. Expected first movers: /for/consultants (7.2), /blog/b2b-roas (14.3), /for/coaches (15.9), the broad targeting post (18.5).
5. Next content batch: /meta-ads-agency (pos 8.2), /blog/how-much-does-a-lead-generation-agency-cost (38), /blog/how-much-does-meta-ads-cost (41), and the remaining thin industry pages from the playbook plan.
